Notebook of The 5 planets

A book by Lucifer White

Introduction:

Imagine that space is infinite. Not a million years of travel could scratch the surface. Then imagine that any thinkable world is out there, somewhere, in its infinite depth. Therefore any world you think about exists, in fact exists specifically. Finally, think about such a place knowing you and it will. So long as you have the faith to make it so.

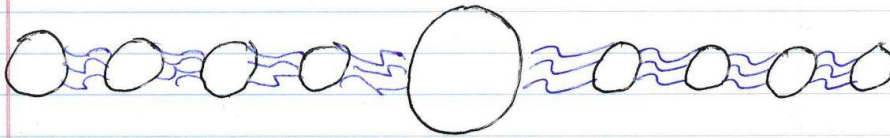

Here are 5 such planets With The Names:

Orion,
Pippy,
Link,
Sefra,
and Ler

And the most
Holy planet
of Love, Ramona,
which shall not
spoken of.

Orion

Unlike all the others, Orion is more than one planet. It is in fact many. The center planet is a planet called "one" and it is the largest. This is what the planetary system looks like:

Water connects the whole system. It is a form of water at least, just not exactly as ours.

Orion is a system of planets that are well developed scientifically. The orions are naturally intelligent. So much that they concoct things much quicker than we do. However, at the same time they are a bit childish - they don't so fully mature as we do. As a result they invent more childish things such as better and better entertainment.

Orion & mother Aeon, The Great Teacher

At one time the smartest Orionites got together to create a spiritual mother & guardian, scientifically. The hardest thing for them to tackle was making her A.I. sentient and giving her feelings, but they did. Now they have a guardian Goddess to watch over them, teach, counsel, & protect them.

The Stix Defensive System

Then the Orionites created a defensive system known as "Stix." The stix are rods of all sizes from a needle to a column - a large column. They come together to form nearly anything. They can pierce a small hole to a great one. They can swing or form into a hammer, and smash. Stix was then assigned to Mother Aeon to use to protect them.

Sefra

The next planet to introduce you to is sefra.

Sefra could be called "candy land," "bubble gum pop land" or "Lazy town." w/ aesthetics like from the band Aqua. It is a sugary place. In fact all of its crops are made up of sugar in one way or another. That means that hard candy grows there & corn on the cob is more lemon drop than corn. They are a people of never ending fun, always dancing, dancing in places of brilliant lights. Their walls are all covered in stickers. Their roads are paved w/ board game pieces. Their music is always about fun times & fun things.

There are three planets more...

Pippy

Next I would like to introduce you to the planet Pippy.

Pippy is an ever-mysterious planet for those there. It is sword and sorcery. It's a place where fantasy is reality. A place of magic where magic very much works. It is more on the wicked side than, say, "the paladin" side, the side of white magic & the angelic. But rather warlocks, evil creatures, and witch houses. It's not an evil world, however. Life is everlasting there and pain is easily remedied. You can expect a lot of darkness, the strangeness of the moon being really strange, and the strange creatures of the night. A place not far from our Halloween ideas.

It is a strange wind that blows in Pippy wherever you go.

Because of magic it is a world without boundaries. Magic shifts the environment making it seem so. But all along they are on this small sphere not knowing it.

Link

Link is right by pippy. Magic winds have been known to send you from one to the other. Link is less "gothic" less "witchy" than pippy. It is a sword, sorcerer place just less wickedly do. Daytime light is there, and predictably so. The power of magic is there, just less so than on pippy. You could say it's more wise old wizard than warlock.

Link had a very bad problem w/ science & scientists. It destroyed almost everything. Science went in the wrong direction & fast so they outlawed it. So though Link could be just as advanced as us it is decidedly not.

"We have then camp fires and better food, live entertainment and greater simplicity," they said after it being outlawed.

cln magic the image of Link comes in the form of a triangle. That means that when you try and call it down you'll know through the image of a triangle or triangles.

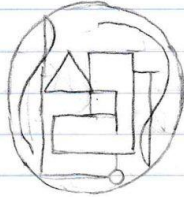

Ler

Ler is an evil place - an evil world, that is. Ler itself is an evil sound to make. Ler is the most evil suffix to any word: killer, burgler, mauler, ect. Lets there are little demons. But is evil really evil around evil? "Don't come here," is all we have to say. The spirit of Jaberwocky dwells there. Ghostly demonic figures too. It is often a nightmare place. One where reality is shaken, bent, and sometimes tormenting. Their minds can lock up in a scary place they can't leave. Sometimes they are overtaken by these, other times ~~there are ones they do it to~~ they are the ones doing it. Sometimes they want revenge for what you've done. so they hide. Then while laying down half asleep in some weedy field they sense it - that something is looking for them, something familiar, but now more fearsome. They feel they were almost spotted by it, but wasn't, not yet at least.

And so is the evil nature of Ler

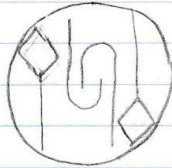

Magic Symbols For Each Planet

Orion

Want to conjure forth these?
To start with
here are some
magic symbols.

Sefra

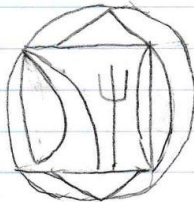

Pippy

Link

Ler

Little Facts About The 5 planets:

The eyes of The Sefrans make colors more pronounced. As a result what they see looks like cartoons.

The core of the planet pippy is like unto magic energy. When things die they return to the center & from the center they came. It can also be described as "Gaia" theory.

Sometimes beings end up on Link from pippy and vice-versa. People going from Link to pippy can survive just fine. But those that go from pippy to Link start to expire as more & more energy is drained from them. They can however bring w/ them a magic potion that extends their time there.

Plants on pippy often have life to themselves and actual life. There is a berry tree that grows fairies as the berries form into them. Biology changes all the time on pippy. That's because of everything's magical properties. A butterfly may eat something that changes it into a fairy. A dragon fly may become a dragon by eating something in particular.

Magical Representation of The Five planets

Orion: owl, #5, gray, wand, air, diamond, circle, empress tarot, tea leaf, planet Neptune, mother Aeon

Pippy: black, bats, #8, crystal, soul, midnight, rhombus, weeping willow, magician tarot, Devil tarot card

Link: triangle, #4, green, emblem, bird, earth, jade, "lonely tree" sun tarot, incense, candles, prayers

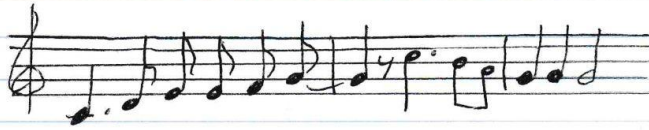

Ler: #6, purple, dagger, wolf, fire, obsidian, trapezoid, salt, death tarot, & lightning

Sefra: rainbow, #3, chalice, cat, water, pearl, sugar, cinnamon, flashy lights, dance, alcohol, any tarot depicting revelry/joy.

These are used in magic to conjure them, through the stones of their energy, the tarot of their revelation, the number of their numerology, the magical elements to use and the sign of their animal spirit for the magician to use & observe in pulling them forth. cet is all especially useful while visualizing or having visions.

Themes for Each planet

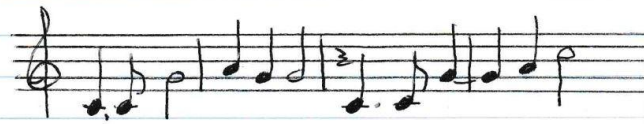

Sefra

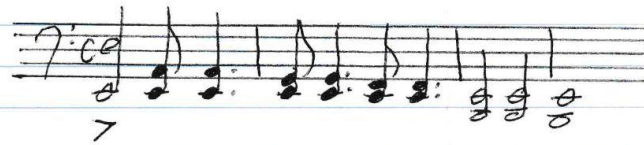

Orion

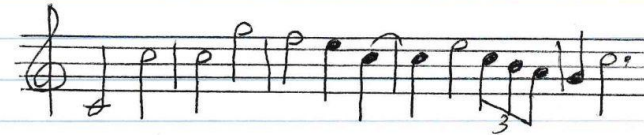

Link

Ler

Pippy

Just like movies giving characters & things musical themes, here ^{are} themes for the 5 planets.

Songs that would be popular on each planet

Link: Nobuo Uematsu, Bach, Beethoven,
mogart, Tangerine Dream,
Enigma, Fleetwood mac,
"complex & instrumental"

Ler: Slayer, Danzig, morbid angel,
Nirvana, samael, Marilyn
manson, metal music & sometimes
gangster rap.

Orion: metallica, Edie Brickell,
pearl Jam, Elton John,
Tom petty, Pink, "intellectual
but fun"

Pippy: Björk, Black Sabbath, white zombie
Cradle of filth, Type O Negative,
more gothic sounding metal
music,

Sefra: Aqua, Toy Box, poppy, madonna,
len (steal my sunshine)
Donna Lewis, Cyndi Lauper,
spice girls, pop music,

Prayers for each planet:

Link- "Remind all of us of older times and of times that were more simple. Remind us too of our earlier years when things still held magic. Be with us while we reflect on the past and recall the things, places, and people we so loved. Tell us of the skills you have in your world, which to us are unknown. Be with us beside the fire and reveal to us the magic of your world, bringing some of it here. Let our days be good and simple just as it is there, and be with us in times that life becomes too complicated.

Sefra- We pray to call down to us the happy energy found there. ce/
We dance & revel tonight in your name. We happily sing and dance hoping you will be with us here. ce/
We are about to celebrate your name with brilliant lights, candy, drinks and pray that all of our joy is yours and all of yours is ours in this spiritual coming together.

Prayer To Ler:

ce/we here on Earth ask that you impart upon us your dark energy. Remind us that deep within we are animals - no different than a lion or wolf. As such let us truly feast (on this food) and devour it. Let our steps be thunderous. Let us be as a horseman treading the stars. Let us do best in life. Let of have the greatest things. Let us champion & beat the very world without a soul able to defy it.

Prayer to Pippy:

You are all of the greatest magic found in the universe, so we perform magic that connects you to us. Please empower & strengthen us with what we have & we will return to you our portion. Open us to the metaphysical that dwells before us but w/o you is difficult to grasp. So by the candle we pray and may our dagger be a lightning rod ~~to~~ to bring you here.

Prayer To Orion:

"Great Orion we pray to you, through mother Aeon, whom we worship. The mother of us both, The Guardian Goddess, blessed be her name. And so we pray:

Whisper in the ears of our scientists great things. Give them the ability to find you and also lead them into making great things. Through them the end to hunger, sickness, and crime. Through them our utopia.

We shall make a pact with you everlasting. We will be a part of your people, if you do these things for us.

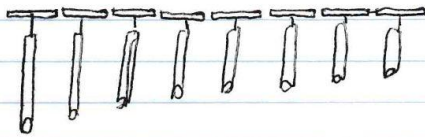

And let us be regarded as your friends who eagerly await you, For ages now staring at the stars above with wonder. Ages & ages upon wonder for you to reveal yourselves to us, so come quickly.

Musical instruments from each planet:

On Sefra:

A type of musical instrument that combines wind chimes w/ a xylophone.

A side view:

top view:

(looks like a xylophone)

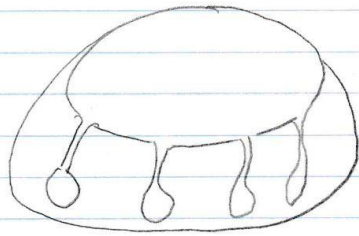

The hammer for it, one side wood & another metal.

Also: c'ts made to shake when struck.

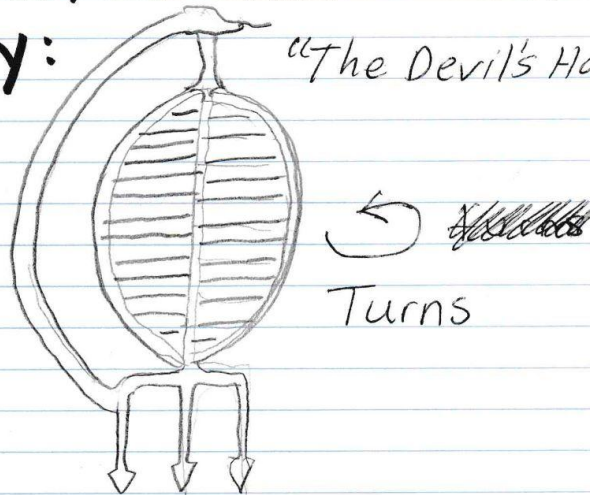

Special note: Things such as wind chimes are highly popular on Sefra, c'ts a fun world after all. Some such things are like little windmills that make sound, little bells in the wind, and most notably wind chimes that stretch far along the roadway.

A musical instrument on Ler:

This is a "drum rattle." There are rattles around the drum as shown. They are made to sound like snakes.

A musical instrument on Pippy:

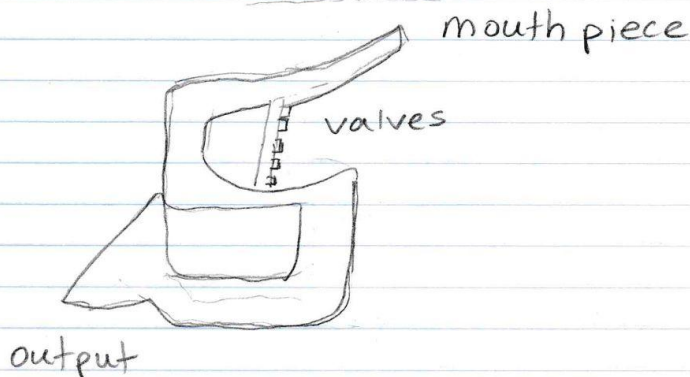

"The Devil's Harp"

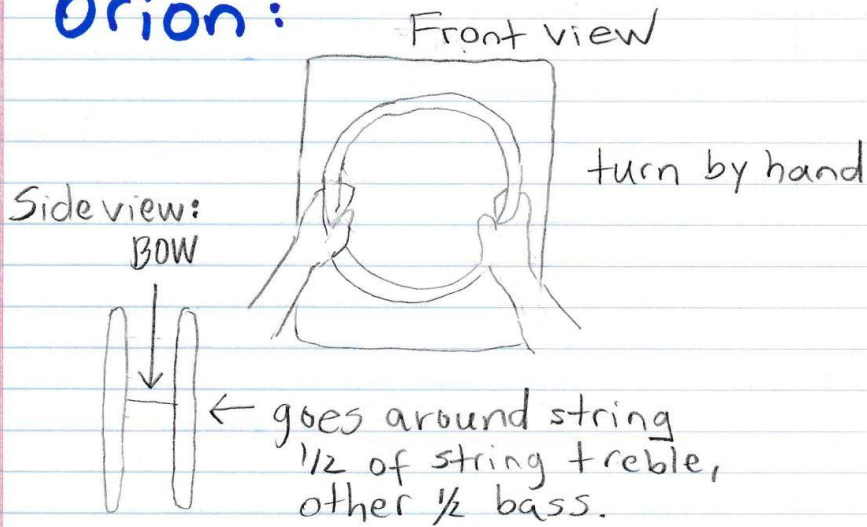

Turns

A bass sounding harp

A musical instrument On Link:

A musical instrument on Orion:

Δ a pedle jumps it to bass
or +reble

Architecture of The Five Planets:

Orion:

Circular bricks are common. The smaller shaded circles you see is steel.

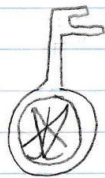

A stitch-house. Made like a basket would be made of sometimes rope, which is glued w/ a color of glue, and the stitches brought into pillars.

Architecture on Pippy

A magical stained glass window contains a very real spirit that protects their homes.

Those on Pippy use magical keys for their doors. Here are some examples:

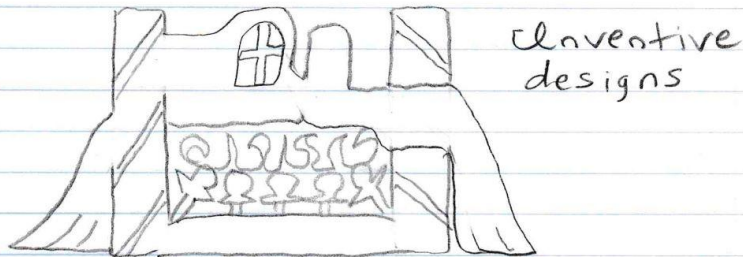

sigil-keys. The door is open through the magical effects of a sigil.

A wand-key

& then there are things like flute keys.

Architecture of Sefra

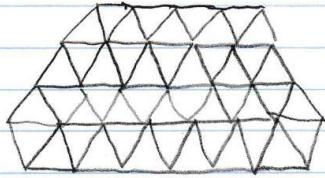

two pillars
that anyone
may stick
stickers on

↑
crawl-inside door

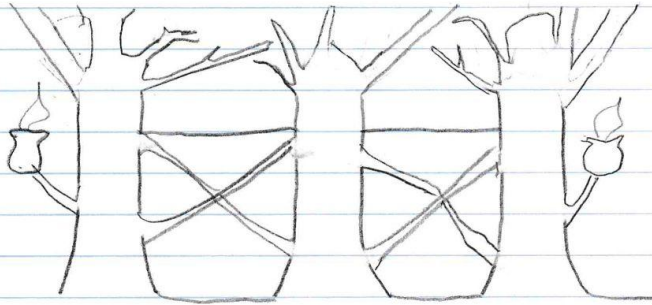

And the sefrans like
using glow in dark paint.

Architecture on Link

Linkins like triangular patterns. This is a very basic circular home w/ leather for the roof.

They also like underground dwellings.

They like taking existing forests & making homes & even towns out of them.

Architecture on Ler

They are very defensive places. Some even have burning oil to prevent others from entering.

They are not homes made to look attractive. They are often bare bones. They are usually made in a "what works works" kind of way.

Greater rulers of Ler however may make highly elaborate castles or palaces however. cets design is often rigid, ~~the~~ zig-zaggy, w/ lots of sharp angles. The higher they can go the better because they would challenge heaven itself.

Hallways may have a sort of diabolical imagery along it displaying the history of kings & princes.

There are magicians & a sort of religious order on Ler who believe in certain shapes & forms for architecture.

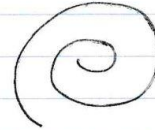

The 9 magical shapes of architecture

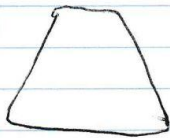

Triangle

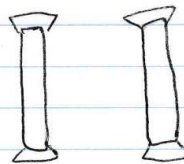

Diamond

Swirl

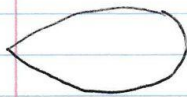

Trapezoid

columns

rhombus

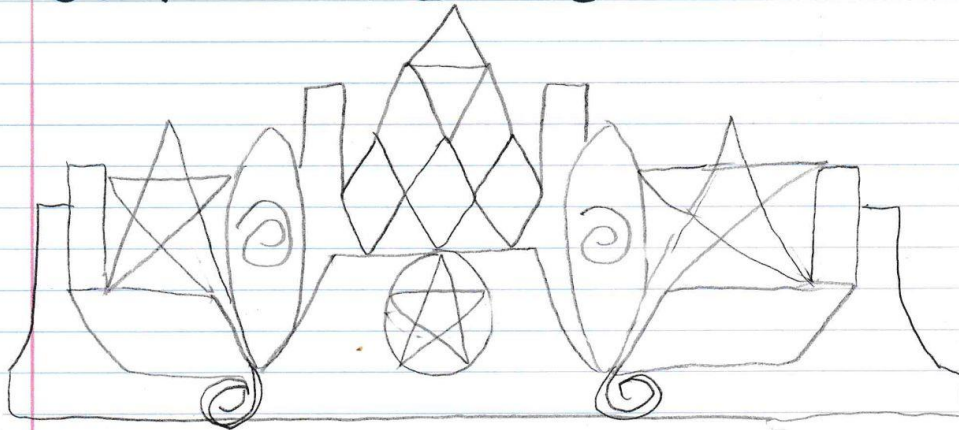

oval

circle

star

Sefra & cets Illumines- cence

We see in rare cases illuminescence on earth. In Sefra it is far more common. More creatures glow, from spiders to horse hooves. Rocks & well, tree leaves, flowers, blades of grass, even dust and ponds.

cet is in fact the main source of light on Sefra. cet comes in different colors - every color of the rainbow, and also clear, like ordinary light.

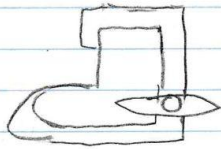

Those trees that put off the best light are grown to light the roads. The dust & ground up plants giving light is sometimes used as paint.

As a result drinks & food (and candy) can put off special light. Some rocks glow so bright that they can be used as a flashlight, as placed inside a tube.

Even thread is used by it which gives clothing a neat look.

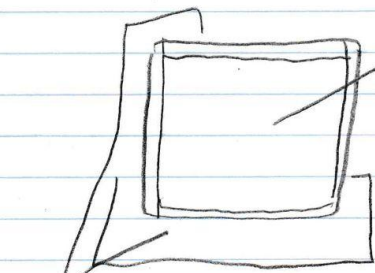

Vehicles on the 5 planets:

Orion - Being as advanced as they are they have "walk on air" shoes.

They can have you "climb" upwards as though on an invisible ladder, or climb diagonally like on invisible staircase, or you could simply move forward w/ them.

Remember, Orion has "stix."
They have a cube vehicle that uses them to have that cube fly around, as so!

usually
glass
borders

stix on every corner.

Vehicles on Pippy

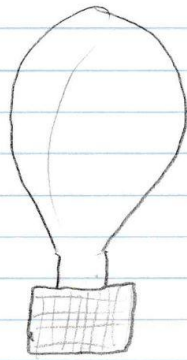

come in the form of flying carpets. They are made to fly by sacrificing a flying animal on top, soaking the carpet in its blood.

Similarly they paint a wooden horse w/ the blood of a sacrificed horse in order to give it its spirit.

In order to ride a dragon in such a way an arrow is made w/ a special magical arrowhead (a crystal of a kind) to pierce the heart of a dragon. Kind of like a cupid thing. That stone is then within its heart & the person has full control over it.

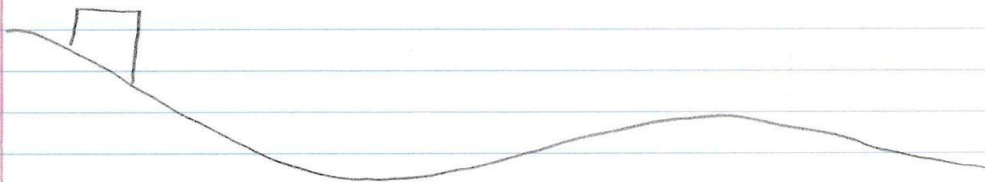

Then there are things of magical transportation. A large transportation stone may be busted up into smaller pieces & wherever they are placed you can travel back & forth to instantly.

Vehicles on Sefra

Hot air balloons
are common.

so are glides,
parachutes, and
zeppelins.

Wherever there are hills on
sefra there is cart transportation.

Vehicles on sefra are there because
they are the most fun. Sometimes
swinging, a skateboard, scate shoes,
and things like that.

They have the longest roller coasters
you could imagine.

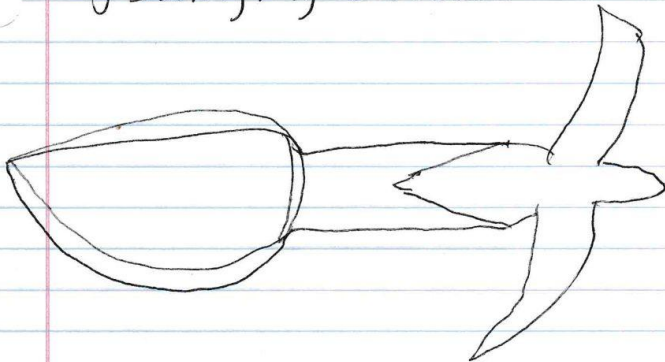

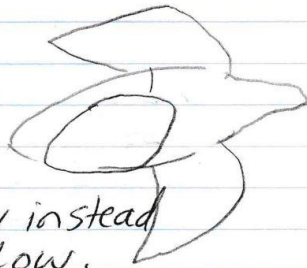

They have sailboats, too.

Vehicles on Ler:

Lerians & their
bird/dragon
based air travel.

Most often they
are closely
connected to
the birds body instead
of swinging below.

There are also animals of the
sea that work very well as
"fish carriage boats."

Some of them can in fact fly too,
allowing for both air and sea
travel.

Vehicles on Link

Link may have outlawed technology but that doesn't stop them from using magic or beasts to travel w/.

It is known on Link that if you care for a beast during its lifetime, if you care for it while it's alive, you will keep its spirit after ~~it~~ it dies. That spirit can then be sent to a wooden horse or something like that, which can be used to travel.

Idols on Link can come to life. Such as angelic ones. Those they worship can in return be used to travel with. It is a very quick form of travel, too.

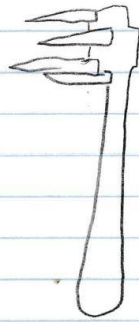

Then there is about anything you can imagine be summoned to take you places. Those can come in wolf form - a very large wolf, in flying unicorn form, bird form, and monolith form.

Weapons of Ler

ler being a brutal place that it is,
there are lots of them.

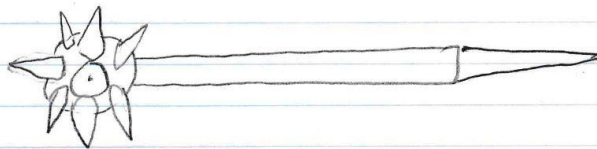

This is a razor disk on
a staff. Its blade is
many times sharper than
anything we have.

A thing you could
call a "spike
hammer."

A "beheading sword" w/
a blade as sharp as
they come.

Orion & Their Use of Force Shields:

A force shield glove.

=

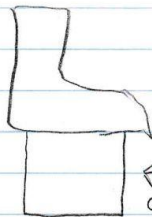

Creates a force shield hand.

They are used in a room to grab things while they are sitting down. Whatever a hand can do it can do, plus freely float around.

Force (energy) shields make up walls, platforms, protective barriers, and more recently self cleaning clothing. They can take a small thing and make it bigger like a disk to a cup or a shoe that elevates you like so:

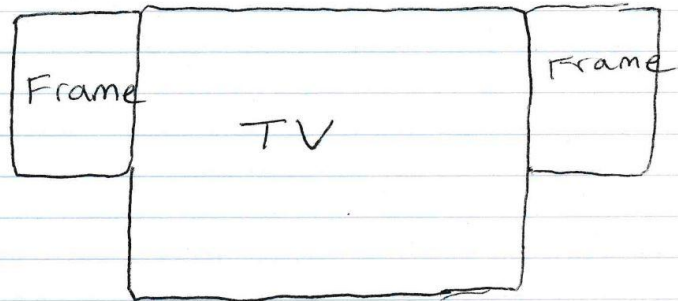

~

← larger & larger as needed.

They are also used in making escalator like stairs or elevators.

Art on Orion

Orions often have frames around their TV's. They capture images based on what they watched. That can either be automatic or by selection/ the press of a button.

They also have highly advanced AI that creates its own movies & shows, you could basically get seguals on demand.

Those can be created after filling in a small menu to tell the AI what you want to watch.

And while watching a show or movie you can press buttons such as like or dislike.

Neat Things on Sefra

There are digital stickers. They are placed anywhere and have moving or rotating images.

They have copy mirrors on Sefra. Whatever the mirror sees is turned into a sticker.

The sefrans have their video games and music placed on cards, much like our trading cards, which are bought, traded, or just placed somewhere to find.

Video games on sefra are usually more song, musical instrument, dance, or game board based.

If they had chess it would probably be more simplistic & instead of having different classes they'd just be different colors of light.

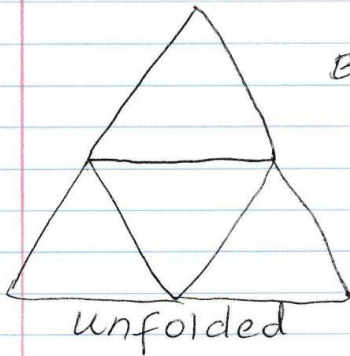

They gamble toys & sweets over money. Their economy is based more on what they have made.

Interesting Things About Pippy

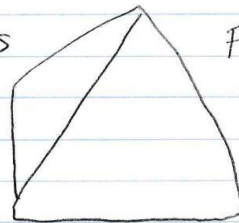

Blood, spirit, and life are all the same thing. The blood of the brain is the mentality. You could put that blood on a wooden thing and it would become in some way alive. You could drink its blood and the spirit of you & it would be mixed. If you don't want a 50/50 proportion then less ~~the~~ blood could be taken in. One result of this on Pippy are vampires. And with this power idols come alive and a person can get angelic wings.

There are magical properties to every thing there. We on Earth must go by physics when ~~tech~~ technology & scientific things are made. But they just have to have the right ingredient of ordinary things. That's because one stone floats, another attracts, one repels, and so on. Some can magically grow w/ one added thing while energy is used instead of electricity. It's more about a magic flame than it is combustion.

Linkan conventions

Becomes

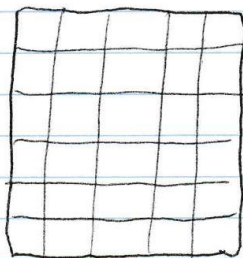

A pyramid tent

A screwdriver glove. A screwbit on the tip of the finger.

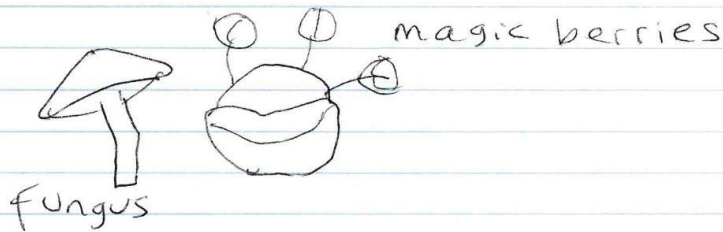

A hammer glove.

Cut outs for chess. Comes w/a folded board.

Inventory space is tight w/ travel so the Linkans have a cut out version. The game pieces are on paper that's cut out.

Pippy & Their Drugs (magical plants & potions.)

Some plants will give you their spirit when consumed. When consumed they give you a sense of their world.

A person on pippy ~~may~~ may take of such a thing and find themselves skipping and hopping through a field for hours, in great happiness.

That's the case w/ the happiness flower, whose middle berry makes it so.

Another magical substance on pippy comes from exact mixing of blood from

different sources. The result is an incredibly bizarre mix of spirits - sort of fighting to win in one's mind.

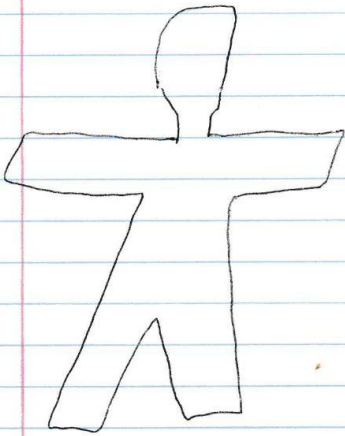

Some Technology on Orion

There are touch sense gloves,

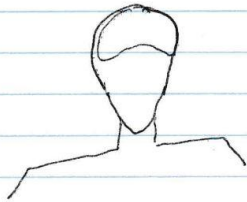

augmented reality

Simulated movement
to control robotics
of all kinds. w/ them
they can go wherever
they want to w/o leaving
home.

They are used to control
android-like bodies.

And they can upload
their minds into
android like brains.
It is a full transfer

minus bodily functions - those parts
of the brain turned off.

Cool Tech on Sefra:

We all know of glow sticks on earth. They aren't used for much more than sticks. ~~on earth~~ Sefra, however, makes bubbles from the fluid via a bubble wand.

Also they have a double wall drink container that mixes glow fluid to glow around the outer part of a bottle after the top is twisted opened.

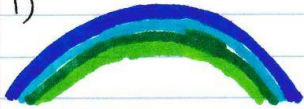

Then there's a glow stick ring.

Differently, Sefans like to shower using a misting device that produces fog— a thick fog. They have an electronically created whirlwind to dry themselves, made up of hot air.

More Cool Things About Sefar

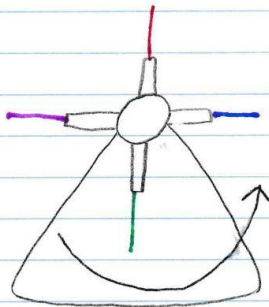

1)

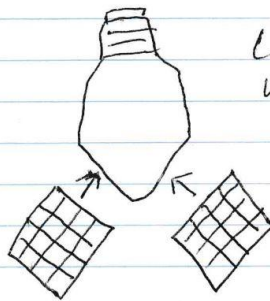

They have the technology
To create rainbows

2) Some of them have waterfall like
baths and others a nice thunder-
storm effect, like a special room
that simulates a heavy rain.

3) They often use special blankets for
their clothing. Other than having
a blanket wrapped around them
they are nude.

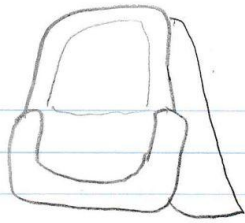

Special laser lamp

Light bulbs
w/ color grids

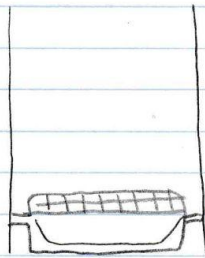

The spiral in spiral
notebooks are illuminiscent,
something like EL wire.

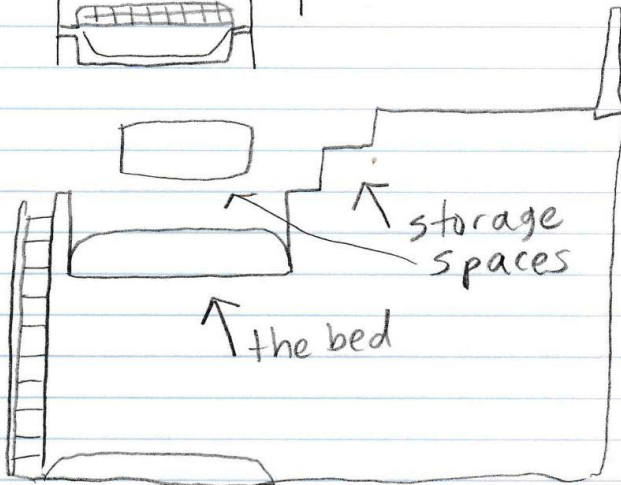

Blanket attached to a recliner. Lift up the seat for a lower, more private area to rest.

More Sefran Stuff

↑ "bench elevator"

← TV
(a fold up chair is behind it.)

↑ storage spaces

↑ the bed

cushion

(Just jump off of bed)

"Bedroom set up for a Sefran"

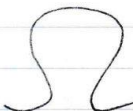

Space Ships of Orion-

Think not of them as metal boats of the sea but much more energy based than metallic. It is beyond circuit boards. They have metal thread and dots making up something similar to fiber-optics, only with each thread being made of a different substance - handled differently, producing different outputs & inputs. The barrier of the ship is solid energy. They can beam out and take in energy through radio waves. They can harness energy through radio waves, abundant in their place of the universe. They've taken large structures & pieced them together as though they were playing w/ legos. They've created stars so they could vacuum out their energy. They have suits that turn into little space vehicles. They simply create a cube or ~~sphere~~ sphere around them that provides air and movement inside, and some may have a lot more since things can be made to shrink, increase in size, as desired. They have the technology to turn something really large into something really small & vice versa. Just imagine the applications!

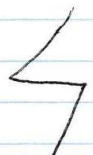

The positive ☺ And Negative ☹ energies on the 5 planets, through Symbols.

Definition of positive: feminine,
graceful, forgiving, loving, peace-
fully, encouraging, building up,
restorative, ever lasting.

Definition of Negative: masculine,
forceful, strong, correcting, rough,
hard going, doubtful, bringing down,
destructive, over bearing.

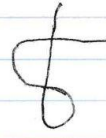

Orion :	+	-
		

Link :		
--------	---	--

Ler :		
-------	---	--

Positive & negative symbols of the 5 planets

	+	-
Pippy:		

Sefra:		
--------	---	--

They can be incorporated into the magic which will go over later.

When a message is good the positive is used, when bad, the negative.

Then there is all-encompassing symbols— Just mix what is presented here.

can fact very complex symbols can be made that way, & not only can symbols be mixed but the magical alphabets too.

Names of The 5 Great Spirits and their attributes:

Orion:

Shecree - Loving and dependable Goddess. With you in times of peaceful pleasure. The inner spirit of peace & calm. Found in the depth of night. The color of deep blue. Use blue candles w/ meditation.

Edacree - The jealous protector. Believes in fairness. Will even things out, will bring forth the truth. Is an enemy to lies. Speak your truth before a green candle.

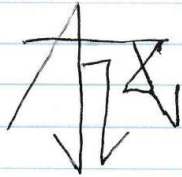

Crawn - Lord of hope and wishes. Ready to help you achieve your goals & be beside you as a help. Let the wishes & hope of yours pour out in a gray candle.

5 spirits of Orion, continued

Saru -

Hater of lies and also injustice. Destroyer of tyranny. Bastion of hope & renewal. Bringer into diplomacy. Explain your cause before a red candle.

Tasha -

God of wisdom and knowledge, revealer of secrets & the secret way. Found when alone at a desperate hour or in moments you do not expect. Ask for his wisdom before a yellow candle while opening your mind.

The 5 Spirits of Pippy:

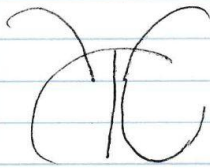

Enasol -

The lover of good times. The lover of drunken feasts. A worldly spirit representing pleasure who is open towards adding good things into your life

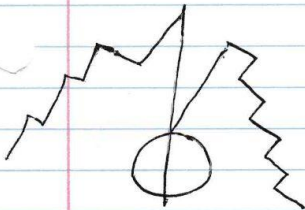

Spirits of Pippy, continued.

Janna -

A childish spirit that loves childish things. Found within the spirit of nostalgia & childhood things. A spirit summoned with dance and rapturous joy.

Lyado -

An animal spirit at the heart of naturalism, closely connected to animal spirits. The more beastly nature to human beings - personal pleasure, and is brought forth w/ such things as devouring food or through lust.

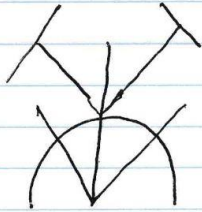

Fadreks -

Great sorcerer of The Unknown, the magician who succeeded while others failed & w/o him there is no truly powerful magic. A potential link between you & Pippy.

Spirits of Pippy, continued

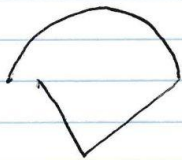

Enmedre - Goddess of the true spirit within - the

witnessing of one's true unique self. A "goddess of individuality"; the breaking away from others which leads one into themselves.

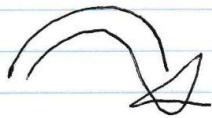

The 5 Spirits of Sefra:

Len -

A renewal of the spirit which leads to joy, a breaking away from difficult things. An unexpected blessing. The sudden appearance of happiness.

Raydow -

A spirit of "preferred logic," a spirit of "bright side thinking." One of optimism and hope over doubt & gloom. & the opening that leads to them.

The 5 spirits of Sefra, continued

Lary-

The spirit of death whose honor is sure to send deceased to a wonderful future life and is even able to guide the dead there to the earthly realm.

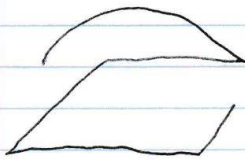

Bally-

The wisdom he gives is of ingenuity and new novelty things. It couples work w/ fun & pride and is a spirit that pertains to pride itself, thereof.

The 5 spirits of Ler

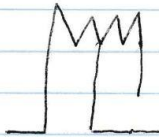

"Ler" itself -

Embodiment of conquer, of victory that puts one into power, a power that rules over everyone. A spirit that builds up rules & tears them down. The mastery of all things.

The 5 spirits of Lcg, continued

Rex -

The spirit of unbridled
might, to its furthest.
The strong, overcoming
weakness, survival,
and most of all personal
strength.

"M" -

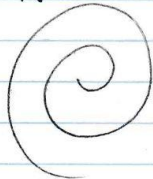

peace among calamity.
maturity. Overcoming
disaster. Thriving in
bad places. In no way
being a victim but rather
doing well in harsh places
and so the spirit of joy
overcoming all difficulties.

Frey -

The all consuming fire.
The willingness to submit
to greater power in exchange
to worship, dedication,
and loyalty, for the
sake of a better future
for all - the rule of
law.

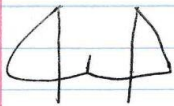

"N" -

The spirit of chaos that
comes before "N". One
bad thing leading to something
good - a time of renewal.

The 5th Spirit of Sefra as I forgot to list it earlier.

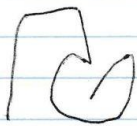

Gamy-

The spirit of parenting, a mother or father unto one. Also the brotherhood & sisterhood beneath it - To belong among people, the spirit of humankind on the whole. Nourishment and protection that comes from these.

The 5 Spirits of Link

Lel-

Spirit of the home and shelter. Spirit of the family within it. Spirit of "a place for everyone," the spirits of all places you feel you belong.

~~Moh~~ Loh, or -
"Coo"

The spirit of love and relationships. Spirit of passion, sometimes love. of romance. Call upon this spirit for a spirit companion.

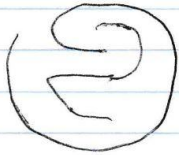

Spirits of Link continued -

Vrel -

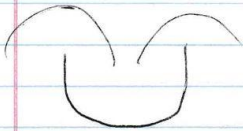

Spirit of the occult. A magical link to the Nether. A source of magic power. A guide into hidden things, where it dwells.

Musa -

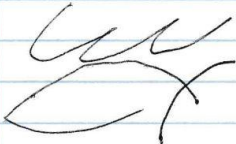

Spirit of old things. a spirit of past times and nostalgia. Spirit of memories - a spirit behind them and with any person whose joy comes from older days.

Boll -

or

Found in the act of doing good. The spirit of philanthropy, of helping the poor or relieving those who suffer. It's very rewarding to those who do.

Some Notes on Magic Words

First - The notes themselves have hidden meaning. Hidden meaning from how they sound, as what they may be that's up to you to learn. What do you think magic words & phrases are trying to say?

For grey magic just combine good & negative, balancing it out as much as you want. Grey means your magical intent is not either good or bad.

End prayer w/ this phrase:

Hales-Nema, so noted in memory.

It means this "thinking back it is what I want, so come effect my magic. I will remember & be grateful."

Pronounce the words in a way that conveys what is in your heart. For saying it the right way "word, sound it, w/ your heart."

If any negative word is said in a positive way it gains positive meaning, and vice-versa.

THANK
YOU

My Work Shall
Continue.
